ICPI Tableau Training (June 2018) Evaluation Results

Evaluation of training structure

The amount of material covered was...	The length of the training was...

Please indicate your level of agreement with the below (agree, neutral, disagree) (n = 11)

The amount of material covered was...
- About right: 10
- Not enough: 1

The length of the training was...
- About right: 8
- Too short: 3

Agreement items:
- The content was organized and easy to follow
- The materials distributed were helpful
- The meeting room and facilities were adequate and comfortable
- The objectives of the training were clearly defined.
- The trainers involved methods of instruction that were effective in helping..
- The trainers were knowledgeable about the training topics
- The training was a worthwhile investment of my time
- The training was well-organized and had a logical structure
- This training experience will be useful in my work

Count of Response

Response: Neutral, Agree

Evaluation Comments

Would you like to be included as part of a Tableau Community of Practice?

Response

Response	Count of Response
No	1
Yes	10

Count of Response (scale: 0 to 11)

What is something you would like to learn about visualizing and presenting data in Tableau that was not covered in this training?

Best practices in when to use Tableau vs R for data management steps

Creating dashboards

Custom shapes, conditional formatting and devise-specific dashboard

N/A

Visualizing qualitative data would be really interesting

Would like to have more hands-on experience creating PEPFAR/MER-specific visuals using country data (down to site level).

Other comments

Great facilitation and handouts. Having the handouts were extremely helpful when I fell behind the presenter or wanted to move ahead.

Great job, Brittney and Katya! This is was very informative, helpful, and I feel like I have a better sense of Tableau.

Great training! Can we have a follow-up that goes more in depth on how to create visuals using PEPFAR/MER data?

None

Thank you so much for organizing! It was really helpful to have a hands-on, in-person training. Would like to see more of this but would recommend that trainings and meetings at ICPI start at 10am or la..

The training went at a great pace and now I feel that Tableau is easy to use

Very useful training, thanks!
